Gold Coast Accounting Practice

I have recently listed a small accounting practice based on the Gold Coast. Please see some key points on the business:

Projected 2017 TO

Turnover for 2016

Sale Price

Number of Client Groups

Average Client Fee

Building Clients

Finance Clients

Manufacturing Clients

Real Estate Clients

Individuals

- Services performed by the practice:
 - Compliance
 - Tax Planning
 - Bas Lodgement
 - Bookkeeping
- 1x Senior Accountant to accompany business sale if required
- Currently on a month to month lease should the buyer want to move premises
- Xero Gold Partner
- Majority of clients based on the Gold Coast.

This acquisition can be seen as a purchase of the business as a going concern, or as a parcel of fees. The business has setup strong systems and procedures over many years of service which is all available to a buyer. Alternatively, this opportunity can be seen as a bolt on to an existing operation.
